

## Adventure Awaits

### Features:

- Molded GRP topside and bottom hulls with choice of gelcoat color
- Built-in flotation foam strengthens the hull and means the Phoenix can never sink even if swamped
- Oversize 42" fan and duct for increased thrust and efficiency
- Four stroke V-twin is smooth, quiet, and efficient.
- Features the 5<sup>th</sup> generation LSH belt reduction drive, with Gates Poly Chain Carbon belt
- Tough vinyl coated polyester bag skirt is stable and provides many seasons of trouble-free performance
- Marine grade, stainless steel hardware and controls

# The Phoenix

The Phoenix is a light sport hovercraft designed to be very simple and affordable to own and operate. Quality design and engineering by the LSH team minimizes parts count and expense without sacrificing the high performance and sleek appearance desired by beginning and veteran hovercraft pilots alike. The Phoenix will soon be available as a ready to fly turnkey hovercraft
